### BOOK MANAGEMENT SYSTEM

📅 Feb 2023

- Book Management System is a project focused on designing a robust application programming interface (API) that allows users to efficiently search for books, ISBN numbers, publications, and authors. Users can search for books, ISBN numbers, publications, and authors based on specific criteria, such as title, author name or publication date.
- Languages - Tool :- Javascript, Node.js, Postman.

### TO DO LIST

📅 AUG 2023

- The "Efficient To-Do List App" built with JavaScript, React.js, and Next.js is an ambitious project designed to streamline task management and productivity. By incorporating user-friendly features, intuitive design, and responsive technology, this application aims to help users effectively organize their daily lives and achieve their goals.
- Languages - Framework :- Javascript, react.js and next.js.
